2 AUDIT METHODOLOGY

This **Recertiifcation** covers the following activities but not limited to the activities described below:

- On-site visits, observations and inspections of estate facilities and field activities.
- Interview operation personnel and field workers for understanding for the work assigned.
- Reviewed revised and updated documentation established and implemented.
- Operating records.
- Training records.
- Reports established.
- Work plans established.
- Stakeholders’ consultation meeting.
- Review and closed out of non-conformance raise during stage 2 audit.
- Assessment reporting.

The methodology for collection of objective evidence included physical site inspections, observation of tasks and processes, interviews of stakeholders, communities, staff, workers and their families, review of documentation and data. Checklists and questionnaires were used to guide the collection of information. The comments made by external stakeholders are considered in the assessment.

For this audit selected estates were based on the formula $S = 0.8\sqrt{n}$ where S = sample size and n = number of estates which is in accordance with MSPO certification procedure. However, sampling of estates is not applicable for this audit as it is not a multi-site audit.

Based on the audit findings AOC (Area of Concern), Non-Conformance (NC) Major/Minor and Opportunity for Improvement (OFI) may be raised during the audit. Major Non-Conformances shall be addressed and responded within 90 days from closing date of audit. Implementation of Minor NC shall be reviewed and verified in the next surveillance audit, OFI shall be reviewed in the next audit.

For sampling calculation we consider the risk factor are 1 after done the risk assessment.

$$S = \sqrt{n} \times \text{risk factor}$$

$$S = \sqrt{4} \times 1 = 2 \text{ (2 estate will taken as sample size for recertification audit)}$$
